

Kiseri Habte

Professional Summary

A web developer passionate about accessible design and technology, formerly a nurse assistant and chem weigh technician. I decided to change careers in 2022 to web development because it allows me to use my creativity to create stunning web pages and solve problems. I have a lifelong curiosity about technology and a sincere interest in learning new skills, creating things, and helping others.

Professional Experience

Full Stack Developer

New Brunswick, NJ

08/2022 - 02/2023

6 months web development bootcamp which took me from near zero coding experience to building full stack web applications.

- Developed and worked on solo and group projects using Javascript.
- Designed and built responsive front and back end websites using React, HTML and CSS.
- Developed my own API and databases using Node.js, SQL and Express.
- Built databases and table structures for web applications.
- Reviewed code, debugged problems, and corrected issues.
- Practiced Agile methodologies and collaborated with others via pair programming.

PROJECTS

WikiView

PotterWiki is a top-notch fan site with detailed information on Harry Potter characters, impressive features, and seamless browsing.

- Took on a lead role in front-end design and used CSS to design a responsive and user friendly UI.
- Built, tested and debugged to ensure a better user experience.
